

TRICARE Pharmacy Program Medical Necessity Form for Lyrica (Pregabalin)

Page 1 of 2

This form applies to the TRICARE Mail Order Pharmacy (TMOP) and the TRICARE Retail Pharmacy Program (TRRx) and may be found on the TRICARE Pharmacy website at www.tricare.osd.mil/pharmacy/medical-nonformulary.cfm. The medical necessity criteria outlined on this form also apply at Military Treatment Facilities (MTFs). The form must be completed and signed by the prescriber.

- Formulary medications in this drug class (the GABA analogs) include gabapentin and Gabitril (tiagabine). **Lyrica (pregabalin) is non-formulary, but available to most beneficiaries at a \$22 cost share.**
- You do **NOT** need to complete this form in order for non-active duty beneficiaries (spouses, dependents, and retirees) to obtain Lyrica at the \$22 non-formulary cost share. The purpose of this form is to provide information that will be used to determine if the use of Lyrica *instead of a formulary medication* is medically necessary. If Lyrica is determined to be medically necessary, non-active duty beneficiaries may obtain it at the \$9 formulary cost share.
- Active duty service members may not fill prescriptions for Lyrica unless it is determined to be medically necessary. There is no cost share for active duty service members at any DoD pharmacy point of service.
